Git-Hub Profile: [Yash2121m \(Yash Patil\)](#)

SUMMARY

Flutter Developer with overall 1+ year of experience in designing scalable mobile architectures using BLoC and clean architecture principles. Adept at structuring applications for maintainability, testability, and efficient state management. Built and contributed to multi-module applications with real-time data handling using Firebase and REST APIs. Focused on writing clean, modular code that supports long-term product growth.

TECHNICAL SKILLS

Languages: Java, Dart, SQL

Mobile Development: Flutter, Android SDK, Cross-Platform Development, Responsive UI Design

Frameworks: BLoC, Flutter Widgets, Material UI, State Management, Clean Architecture

Networking & Backend: RESTful APIs Integration, JSON Parsing, HTTP, Firebase, CRUD operations

Database: SQLite, Firebase Firestore

Tools & Technologies: Git, GitHub, Android Studio, VS Code, Postman, Hoppscotch

Design: Material Design, Responsive Layouts, UI/UX Principles, Custom Widgets

PROFESSIONAL EXPERIENCE

InMinit Pvt. Ltd.

Flutter Developer

Panvel, Navi Mumbai

Sep 2025 – April 2026

- Developed cross-platform mobile applications using Flutter and Dart, delivering responsive and high-performance solutions across Android and iOS platforms.
- Designed intuitive UI components following Material Design principles and Reduced app load time by 35% for smooth navigation and enhanced user experience.
- Integrated RESTful APIs and utilized Firebase (Authentication, Firestore) for secure data handling, real-time updates, and backend support.
- Implemented efficient state management and ensured minimal latency through performance optimization and structured application flow.
- Collaborated in Agile teams, contributing to feature development, debugging, code reviews, version control (Git), and deployment processes to maintain code quality and stability.

NOTABLE PROJECTS

[InMinit Multi-App Platform \(Seller, Customer & Rider\)](#) | Flutter, Dart, Firebase, REST APIs, BLoC | Supported 700+ users

- Led development of a scalable multi-application ecosystem (Customer, Seller, Rider apps) enabling seamless interaction between users, vendors, and delivery personnel across the platform.
- Built Customer, Seller, and Rider modules with features like browsing, order management, inventory control, delivery tracking, and real-time status updates to ensure smooth end-to-end operations.
- Reduced unnecessary widget rebuilds by ~20–30% through BLoC-based state management, improving application scalability, maintainability, and code structure.
- Integrated RESTful APIs and Firebase services (Authentication, Firestore/Realtime DB) for secure user management and real-time data synchronization.
- Optimized app performance, UI responsiveness, and collaborated in Agile workflows to enhance user experience and ensure reliable cross-platform delivery.

[AutoVerse – Car Dealership Application](#) | Flutter, Dart, Firebase, Chatbot APIs

- Led development of a full-featured cross-platform car dealership app enabling users to explore, filter, and compare vehicles with a seamless UI across Android and iOS.
- Implemented user authentication, profile management, and real-time data handling using Firebase.
- Designed an admin module for managing inventory, bookings, and user interactions, improving overall system efficiency.

[Coffee Shop Application](#) | Flutter, Dart, State Management, Firebase

- Built a responsive mobile application with features like product browsing, cart management, and order tracking.
- Designed intuitive UI using Flutter widgets and optimized performance for smooth navigation and user experience.
- Improved app stability through debugging and performance optimization techniques.

EDUCATION

Terna College of Engineering

Bachelor of Engineering — Computer Engineering | 8.74 CGPA

Nerul, Maharashtra

June 2022 – June 2026

ADDITIONAL

Currently Exploring: Advanced Flutter concepts, State Management (Riverpod), and Backend integration with Node.js.

Soft Skills: Strong team collaborator with experience working in Agile environments; good communication skills, adaptability, and a proactive learning mindset.
